## Market Highlights

Renewed wave of selling interest pushed down Orgachim (5ORG: 176.00; - 8.33%) to BGN 175.20 and sent BG40 in the red. Lead & Zink Complex (5OTZ: 27.80; -7.34%) also was under pressure. The company was subject of several market sell orders in thin volumes but the wide price spread additionally pushed down the position. Buyers backed-off and the main index closed almost unchanged after a volatile session. The overall traded volumes remained subdued and speculators continued to predominate on the market. Chimimport (6C4: 8.60; +1.17%) continued the positive trend and was the most traded position by number of deals on Thursday's session. Corporate Commercial Bank (6C9: 90.80; +0.17%) was the best performer among banking sector in unusually thin volumes.

The short selling and margin deals were leaded on BSE on Thursday. The new kind of deals will be gradually available for market participants.

**Analyst Certification:** The research analyst(s) certifies that: (1) all of the views expressed in this document accurately reflect his or her personal views about any and all of the subject securities or issuers; (2) no part of any of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst(s) in this document.

**Financial Interest:** ELANA Trading may trade or own shares of the analyzed companies. The research analyst(s) is not holding shares of the analyzed companies, unless otherwise noted.

**Regulatory Authority:** Financial Supervisory Commission, *Shar Planina* Street 33, 1303 Sofia, Bulgaria

**Information Disclosure:** All reasonable care has been taken to ensure the facts stated are accurate and opinions given are fair and reasonable. Our recommendations are based on information available to the public that we consider to be reliable but for the completeness and accuracy of which we assume no liability. Neither ELANA Trading, nor its directors, officers or employees shall in any way be responsible for its contents. The views expressed may differ from the views of other firm departments or representatives. Additional information is available upon request. Unless otherwise noted, sources for all information in charts and tables are ELANA Trading's calculations.

**Risks for Investors:** Information in this document should not be regarded as an offer to buy or sell any financial instruments. The investment possibilities discussed in this document may not be suitable for certain investors depending on their specific investment objectives and time horizon or in the context of their overall financial situation. In particular, the risks associated with an investment in the securities or the financial instruments under discussion are not explained in its entirety. The prices or values of the securities may go down as well as up and can fluctuate and fall against the investor. The securities or investments may cause the investor to lose the amount invested. Past performance is not a guide to future performance. Changes in exchange rates may have an adverse effect on the value, price or income of the securities or investments.

**Valuation Methods:** Company valuations are based on the following methods: multiple-based (P/E, P/B, EV/EBITDA), historical valuation approaches, peer comparisons, discount models (DCF, DDM) or asset-based evaluation methods. Valuation models are dependent on macroeconomic factors, including interest rates, foreign exchange rates, prices of raw materials, and any expectations about the economy, the market sentiment. The valuation is based on expectations that might change rapidly and without notice, depending on developments specific to individual industries and countries. Recommendations and target prices derived from the models might therefore change accordingly. The application of models depends on forecasts of a range of economic variables, thus there is a range of reasonable variations within models. Any valuation is dependent upon inputs that are based on the subjective opinion of the analysts carrying out this valuation.

**Recommendations:** Analyst(s) recommendations are based on the specific factors for the company, sector, country and global developments, as compared to market indices. Recommendations and opinions reflect ELANA Trading's expectations over the 12-month period following publication from the perspective of long-only investment clients. ELANA Trading reserves the right to express different or contrary recommendations and opinions for different timescales or for other types of investment client. Except as otherwise noted, expected performance over next 12 months vary for different recommendations for Bulgarian stocks as follows:

---

<b>Outperform</b>	More than 5% higher as compared to SOFIX and BG40 performance
<b>Market Perform</b>	Market performance, +/-5% as compared to SOFIX and BG40
<b>Underperform</b>	More than 5% lower as compared to SOFIX and BG40 performance

---

**Frequency of Recommendations:** No schedule of recommendations is available. The frequency of recommendations depends on specific factors to individual companies and the opinion of the analyst(s) for the necessity of minor or major changes.
