AVERAGE MONTHLY GROSS EARNINGS OF PERSONS IN EMPLOYMENT, 2008

By accounting periods

In the first half-year of 2008, an average monthly gross earning per person in paid employment amounted to 7 435 kuna while in the second half-year of 2007 it was 7 152 kuna, which represented the nominal increase of 3.9% and the real decrease of 0.2%, as compared to the second half-year of 2007.

In the period from January to June 2008, the average monthly gross earning amounted to 7 435 kuna, which represented the nominal increase of 7.1% and the real one of 0.9%, as compared to the same period of 2007.

In the first quarter of 2008, the average monthly gross earning amounted to 7 367 kuna, which means that it was nominally by 7.5% and really by 1.5% higher than in the first quarter of 2007.

In the second quarter of 2008, the average monthly gross earning amounted to 7 500 kuna, which means that it was nominally by 6.8% and really by 0.3% higher than in the second quarter of 2007.

NOTES ON METHODOLOGY

Data source

Data on average monthly gross earnings are based on regular monthly survey covering 70% of persons in employment in each NKD 2002. division. The survey comprises persons in employment in legal entities of all types of ownership, government bodies, and bodies of local and regional government and self-government units, on the territory of the Republic of Croatia. Persons employed in crafts and trades and free lances, and private farmers are not covered, so data on their pays are not included in the data on average gross earnings.

Data on earnings are collected by a report form to be filled in by legal entities on the basis of their respective payrolls.

Coverage and comparability

Gross earnings cover all kinds of net pays on the basis of permanent employment plus participation, co-payments, contributions and taxes, as prescribed by law.

The statistical survey on average monthly gross earnings of persons employed in legal entities includes gross earnings of persons in permanent employment, irrespective of the kind of employment and number of working-hours. In the case when persons employed in legal entities in one month or during several subsequent months do not get their pays, they are not included in the data on the number of employed persons while calculating the average for that month or months.

Data on average gross earnings are presented according to realised pays in current for previous month, which is in line with the pay-off dynamics in most legal entities, so the average earning per employed person refers to the month for which the pay is received. However, if the pays are late for previous months and periods of time, the data are included into average earnings for the referring month, since the monthly survey dynamics does not allow corrections of data that are already issued and used.

Definitions

Average monthly gross earnings comprise all kinds of net pays on the basis of permanent employment plus participations: contributions, taxes and surtaxes as prescribed by the law.

Nominal indices of gross earnings are calculated from data on average monthly gross earnings for respective month and year.
