

## MAJOR BUSINESS LIMITATIONS OF ENTERPRISES IN MANUFACTURING

Business activity of industrial enterprises still goes hand in hand with serious limitations. In June 2009 43% of producers encountered problems both on the supply and demand side, while **only 14% of surveyed businessmen face no major operating problems (balance)**. 18% of producers as the main business limitation named insufficient demand, and 25% business burdens that limit supply (61% of companies face a lack of funds, 33% have problems with low prices, and 6% of producers see a lack of equipment as their main business limitation).
